

## BOTOX Post Care Instructions

- DO NOT rub or manipulate the area that has been injected.
- Although some patients may see results in 48-72 hours, most patients do not see full results for 7-14 days following injection.
- No tight-fitting hats for the remainder of the day.
- Do not lay flat for at least 2 hours after injection.
- May apply make up after treatment.
- Continue normal skin care routine.
- After treatment, if you experience any extreme swelling, redness, or rash contact our office immediately.

For any questions or concerns please call the office at 309-282-4111.
